

Supply Chain Management Trainee (f/m/d)

Plant Operation | Location: Continental Matador Rubber, s.r.o.

OUR COMPANY

As one of the leading automotive suppliers worldwide, we develop products and solutions to fulfill people's dreams of mobility every day. Driver safety, comfort, sustainability and industrialization of future technology are just some of our key fields where we already make a meaningful difference in people's lives. Knowing our innovations help to make the world a better and safer place is what drives us.

JOB DESCRIPTION

Special program for students in the final class or for graduates (max. 2 years after study). The duration of the program is up to 18 months, and it is split into multiple assignments. Then you continue in cooperating with your local team in Puchov.

HOME LOCATION - PUCHOV

You will spend the first months at your home location to gain first on-the-job experience, learn about all relevant SCM key processes performed at your home location. The focus will be on our processes, systems, and respective goods- and dataflows. In parallel you will also start to develop your personal network in a collaborative environment.

PLANT & MARKET LOCATIONS

You will spend several months in some of our international plant and market locations. The focus here will be on gaining additional perspectives and learn about the day-to-day operational and strategic challenges. Plants and markets might have conflicting targets in the execution of the process chain. With having already seen different locations, you may identify improvement potential and support our continuous strive for optimization.

CENTRAL STAY - GERMANY

Last but not least, you will join our central SCM team in Hanover, Germany and get to see things on a strategic level. Here, you will also meet your fellow graduate colleagues and benefit from a wide range of trainings and events.

During all phases you will work as part of the supply chain team on challenging projects and operational business tasks as well as attending several training courses. This combination of projects, training, and international experience will provide you with excellent skills and ensure you are ideally prepared for your career at Continental.
