

Invited lecture will be given by

**Dr. Jaroslav Frnda**

from

Department of Quantitative Methods and Economic  
Informatics, University of Zilina

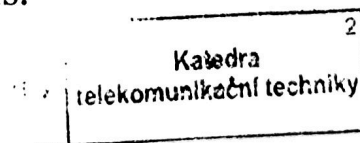

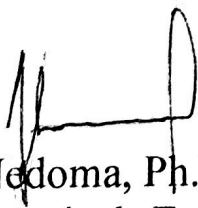

The lecture on

**“Deep Learning for Optical Sensor Applications “**

which will take place at 9.30 am (building N201) on 30th October 2023.

Lecture goals:

- To review machine learning methods for fiber optic sensors applications.
- To discuss how to enhance mutual collaboration in a form of common international project proposals.

doc. Ing. Jan Nedoma, Ph.D.

Faculty of Electrical Engineering and Computer Science, VSB - Technical  
University of Ostrava, Czechia
